

# EASY-COOL BOX

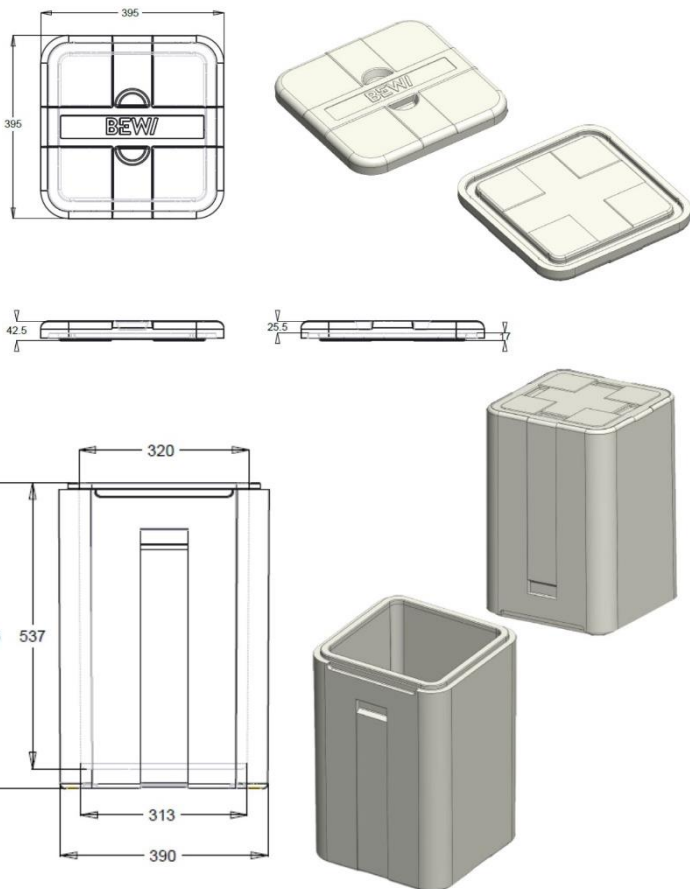

The Ultimate Solution for Efficient, Sustainable Cooling.

## Product description

Easy-Cool Box is a new and improved version of our packaging for storing ice, fruits, vegetables, and more. Departing from its previous cylindrical design, the new Easy-Cool Box features a square shape, enhancing stackability and optimizing pallet usage.

Moreover, it now features handles for improved maneuverability, facilitating easy lifting with a capacity of up to 25 kg.

Its lid is equipped with a two-step closing mechanism, ensuring better insulation. As a result, contents can remain cold for up to 48 hours when stored at room temperature. . Easy-Cool Box is made of expanded polystyrene (EPS), making it 100% recyclable. Depending on volume, we also offer a product return service, enabling recycling for future use.

## Specifications

**Material:** Expanded Polystyrene (EPS)

**Recyclable:** Yes. EPS is 100% recyclable.

**Color:** White

**Capacity:** Approximately 50 L.

Dimensions.:

Product	Hight	Width, top	Width, bottom
Box without lid, internal dimensions	537	320	313
Box without lid, external dimensions	575	395	390
Lid	42.5	395	395
Overall dimensions	605	395	395

Item number box: S1010

Item number lid: S1010A
